

## SLEDGE HAMMER - WOOD HANDLE Réf.: 0002450301

### Caracteristics

Cross pein - french pattern. Used initially by mechanics, who are looking for a heavy hammer, both powerful and precise. Steel head with high C45E carbon content. Forged head, with heat treatment by induction of working surfaces (54 HRC). Finely polished working parts. Epoxy powder painting by electrostatic process, followed by baking. 1/20th muzzle of the head at 45°. Red ring that signs the wooden handle Mob hammers. Registered model. Hickory handle: hardwood of high density, suitable for intensive or frequent use. The nozzle is made by a hydraulic machine, a stress sensor measures on each product the power of the nozzle, then a pressure sensor controls the installation of the resine. The pull-out performance is much higher than the standards and is the trademark of MOB tooling.
