

CROWBAR Réf.: 0150050601

Characteristics

USE: heel clamps are used to leverage, move, lift, lift, position or stall heavy loads. **MANUFACTURING:** the steel chosen is a steel heavily loaded with carbon. These great products are traditionally made by Mob in «free forge», so it is the redsmith who realizes by hand and unitarily the desired shape. This work requires an informed look, a rigor of realization, and a good physical condition. This is the quintessence of the redsmith trade. **FINISH:** a new chain of epoxy paint for long products has emerged for increased quality and a better respect for the environment.
