

PROTECT DINGING HAMMER - WOOD HANDLE Réf.: 0200289301

Caracteristics

Round face. Hammer used initially by boilermakers. C45E high carbon steel head, induction-treated working surfaces (54 HRC). Polished working parts. Epoxy powder paint by electrostatic process, followed by baking. Hickory handle: hardwood of high density, suitable for intensive or frequent use. This kind of handle risks to be damaged. Mob's solution: A resistant metal ring that goes through the head and protects the hammer. It increases the durability of the product. Made in France in our factory in Le Chambon-Feugerolles.
