

## 'DYNACHOC' WOODEN MALLET - WITH FIBREGLASS BANDS AND HICKORY HANDLE Réf.: 0331060301

### Characteristics

Compressed wood mallet with recessed fiberglass binding. MOB's know-how was integrated following the acquisition of Dynachoc in 1999. A specialist in «soft» striking, Dynachoc presented know-how complementary to that of MOB. The name «Dynachoc» lives on through its flagship range of laminated-fretted mallets. The head is made of glued laminated wood, which is particularly stable. Renowned for its very high mechanical resistance (bending, compression, torsion), it has a straightness and homogeneity superior to solid wood. **STRAPPING:** 2 sets of fiberglass encircle the wooden mass, ensuring the maintenance of the crossed layers during strong and intensive strikes, for optimized longevity. The fibers are colored green to signal their presence. Hickory handle: high density hardwood, suitable for intensive or frequent use. Its excellent tenacity gives it high reliability. Tools designed for professionals. Made in France.
