

HANDLES FOR MASON'S CLUB HAMMER Réf.: 6650000301

Caracteristics

Right fitting: add a corner. Hickory handle: hardwood of high density, suitable for intensive or frequent use. **HOW TO CHANGE A STRAIGHT HANDLING WOOD HANDLE:** take the correspondent handle. Choose a wedge which enters the eye without getting out. Rasp if handle does not enter into the eye (some adjustments must be made because MOB evolved its eyes and handles, during time). If the handle passes the eye, than cut again before putting the wedges. Put the wedge, using a hammer, until the handle is fixed in the eye. For club hammers put 2 metallic wedges, one near the other. The wedges must not overpass the handle. N.B : handling done by users is no more guaranteed by MOB.
