

JOINER'S HAMMER - WOOD HANDLE Réf.: 0400160201

Characteristics

For joiner work, assembly of wood pieces. **QUALITY:** Carbon steel head. Forged head, induction-hardened working surfaces (54 HRC). Polished working parts. Epoxy powder paint by electrostatic process, followed by baking. A red ring marks the hammer's wooden handle. Registered design. European ash handle: flexible mechanical behavior, contributing notably to the force of the strikes and the absorption of vibrations. Labeling: PEFC-certified (wood from sustainably managed forests). The connection between the head and steel is made by a hydraulic machine. A stress sensor measures on each product the power of the nozzle, then a pressure sensor controls the installation of the resin. Extraordinary high performance.
