

## HALFROUND EXTRA NARROW Réf.: 1554150510

### Characteristics

- The rasps enable the work of wood or plastic. SIZE Vallorbe fine rasps have an exclusive pitting, specially designed for quality finishing work. The size is not linear, it forms recognizable waves, for a more efficient removal of material. The teeth attack the wood with a slight offset, so there is no risk of creating furrows. QUALITY Vallorbe has put its quality and know-how at the service of the woodworking sector: the same rigour in dimensional precision, steel hardening and, above all, in the regularity of pruning. Because every tooth counts, for flawless work. Tempered forged steel. Exceptional pitting quality. Long service life. Swiss Made.
