

VICE Réf.: 3010000100

Characteristics

High-quality vise, made of forged, hardened, unbreakable steel.
Milled and induction-hardened jaws (52-58 HRC) for greater strength.
Adjustment device.

Forged base.

Round shape, does not cause injury.

Extra-large opening with adjustable slide.

Measuring scale for easier reference.

Large hardened anvil (50-56 HRC) for straightening and upsetting work.

Jaws with additional swivel jaw attachment device (from 120 mm).

Two clamping systems: Classic clamping with a removable sliding handle, and the exclusive MDS system that allows the vise to be clamped with a 1/2" square ratchet. This makes it easy to clamp bulky parts and parts in difficult positions.

The thread is protected.
