

CORNERS POST Réf.: 309650

Characteristics

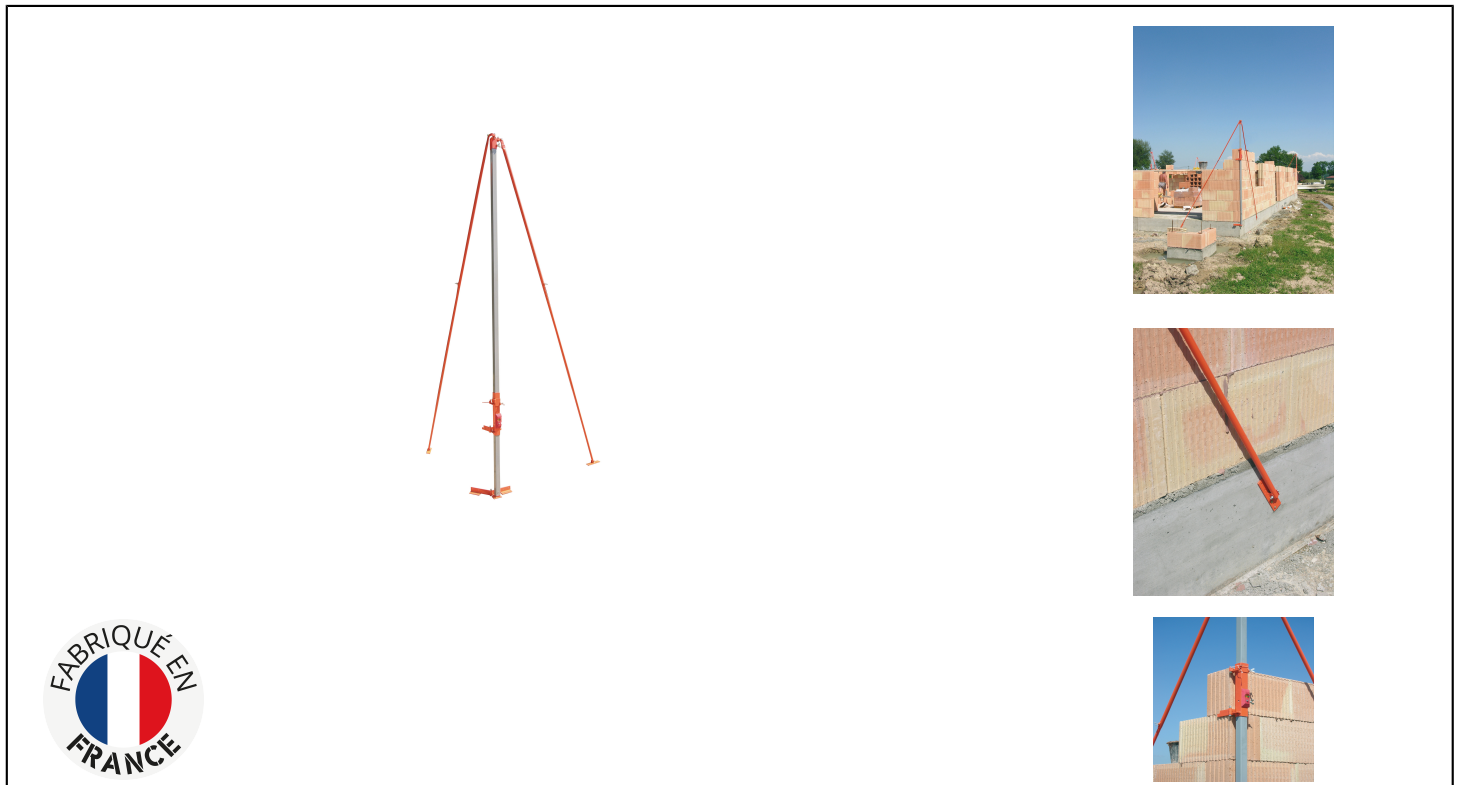

For building walls of breezeblock, brick or other materials

USE

- Eliminates the need for plumb bobs and chalk lines for each row of blocks or bricks
- Allows you to create variable angles greater than 90°, inside and out
- Support for chalk line and levels built into the post

FEATURES

- Consists of a post with 2 adjustable stays. The post and stays are each fitted with a plate for fixing.
- The stays are used to hold the post in place
- A sliding part on the post incorporates 2 levels and an angle adjustment system. It allows the mason to bring the system defining the angle to the upper height of the masonry row to obtain the upper level of the row to be built, thanks to the horizontal line.
- Epoxy-painted stays and sliding part
- Galvanised post
- Supplied without cord
