

TRACING TRANSFER RULER Réf.: 501600

Characteristics

For marking out and laying out partitions

This extendable ruler with vertical levels makes it quick and easy for a single person to transfer the layout from floor to ceiling

Two removable plates can be fitted to the upper end of the ruler, one for normal tracing, the other for offset tracing

The foot, fitted with a spring, and a locking butterfly allow the ruler to be fixed between floor and ceiling

For honeycomb walls, use the 10 or 13 mm offset plate depending on the thickness of the facing panel (see diagram)

An ear for attaching a chalk line makes it easy for one person to draw the line

SPECIFICATIONS

- Aluminium profile
- Maximum height: 3.10 m
- Minimum height: 1.75 m
- Weight: 3.55 kg
