

ENGINEER'S COLD CHISEL WITH HAFT Réf.: 7240250201

Caracteristics

Patented security head: Forged individually for a long durability. Lower risks (splitters, deformation). Silicon 51CRV4: excellent mechanical strength. Hot forged for a higher resistance and better form. Hardened (heat treatment) by selective induction on the work side: resistant, sharp cutting edge 52-58 HRC. Can be reground. Extremely high performance. Epoxy finish (treatment in oven - top not included). Flat handle: better grip. Does not turn in the hand. PROTECTION: Hexagonal part - protects the hand. Ergonomic: Bi-material haft with elastomer for a better grip and polypropylene for more resistance. Inner wings for a better absorption of vibrations.
