

LONG COMBINATION WRENCHES Réf.: 9001080001

Characteristics

Long handle for better torque. COMBINATION WRENCHES. Chrome-vanadium alloyed forged steel. Controlled heat treatment gives it the hardness to withstand high stresses. Key openings are made by broaching, a technology that produces very precise dimensions with a high quality surface finish. The profile of the polygonal heads has been specially designed to avoid damaging the corners of the nuts. When force is applied, the pressure is not exerted on the corners but on the sides of the nut. The strength of Mob wrenches far exceeds ISO standard specifications. Strength far superior to the standard. User-friendliness: ergonomic, non-sharp wrench body for a secure grip. Reliefs and soft markings made by cold forging for tactile comfort and easy cleaning. 30° pick-up angle. 15° inclination for use in tight spaces. Made in our factories.
