

EXTERNAL CIRCLIP PLIERS 90° JAWS Réf.: **9323100001**

Caracteristics

The geometry of the pliers is designed to allow circlips to be fitted with just one hand. For pliers with external circlips, the return spring facilitates ring handling. The handles are sheathed for a secure grip. The beaks can be angled inwards or outwards to prevent the circlips from slipping during handling. Spouts are induction-hardened for added strength. Spout diameters are precision-engineered to match standard circlip holes.
