

CONSTRUCTION SITE CHEST WITH TRAY Réf.: **9594010001**

Characteristics

ERGONOMY

Rounded shape. Sliding tray with rounded corners. Registered design manufactured in France.

LONGEVITY

The sheet metal has an innovative and more effective surface treatment with a zinc coating (2 layers). This provides an anti-rust effect (inside and outside the box). Textured paint for greater resistance to scratches and impacts. The flight case-style handles have a maximum lifespan and are non-protruding. They are very comfortable to grip thanks to the sleeves that increase the grip diameter.

SECURITY

The padlock closure system (not included) is integrated directly into the structure of the box and does not protrude. There is no risk of damaging it with accidental impacts.

CONFORT

Hinge with integrated stop and non-protruding design for longer service life.

The lid stays open at 95° for easy access to the interior of the box.

The handles are recessed and do not protrude there is no risk of damaging them with accidental impacts.

The handles are fitted with plastic sleeves and have a diameter of 15 mm for greater comfort when carrying the loaded box.

Internal sliding tray made of recycled PP copolymer plastic: lighter and more resistant to impact and extreme conditions.

The tray is equipped with 3 removable dividers. 4 possible configurations (from 1 to 4 compartments).
